Primerica Legal Protection Program

Your Goal: Have a current will and protect yourself from unforeseen legal issues.

Where You Stand

\$0/month - No Protection

Your Quote

\$25/month
Add Legal Shield \$1/month

Ask yourself the following:

Have you ever...

- Purchased a defective product?
- Paid a bill you thought was unfair?
- Signed a legally binding document?
- Received an unjustified traffic ticket?

Do you ever plan to...

- Write or revise a will?
 - Purchase a new home?
 - Purchase a new or used car?
-

If you answered yes to any of the questions above, the Primerica Legal Protection Program gives families access to top quality law firms for \$25 a month.

- PLPP allows you to have a lawyer a phone call away when legal challenges arise.

Powerful features to help you in your time of need:

- Unlimited Phone Consultation and Assistance¹
 - Complimentary Will, Living Will and Durable Power of Attorney
 - Probate Benefits
 - Motor Vehicle-Related Benefits²
 - Trial Defense Benefits³
 - IRS Audit Legal Services⁴
 - Contingency Fee Matters
 - Discounted Legal Work⁵
-

Protect Yourself With Legal Shield

The Primerica Legal Protection Program has an optional benefit – Legal Shield. For just \$1.00 per month added to new or existing PLPP coverage, members will receive round-the-clock, toll-free access to a PLPP attorney. Just \$1.00 provides the peace-of-mind that an attorney – from the same top legal teams PLPP always provides – is only a phone call away.

Refer to Important Notes page for disclosure information.

Primerica Legal Protection Program

Your Debt-to-Income Ratio

- ◆ Your debt-to-income ratio - the percentage of your gross income that is consumed by your minimum required debt payments - provides a good indication of how strong your financial condition is day-to-day.
- ◆ Based on your monthly gross income of \$9,500 and your minimum required payments of \$2,507.00 for all entered debts, your current debt-to-income ratio is 26%. That is, for every \$100 of monthly income, \$26 is going toward paying off your debt.

Based upon your current income, your debt is at a fair level. But, you may be finding a sizable portion of your income going towards paying off debt. Consequently, you may not have enough to reach your other goals.

Reduce your debt by not charging as often and by paying down your debt.

*The Where You Stand result assumes you do not increase your balance on debts included in your analysis, you make only the minimum required payment on the outstanding balance on revolving debts (such as credit cards), you pay fixed installment payments on your other debt, and all debts are paid on time each month until all debts pay off. If an additional payment is currently made on a debt, the additional payment will remain constant until the debt pays off. This example also assumes that if you pay off one account, you do not apply the funds used to pay the first account to the next account.

1. Revolving debt. With a revolving debt your minimum required payment is calculated as a percentage of your outstanding balance. This means that as your outstanding balance declines, your minimum required payments decrease. This could extend your payment schedule out for many years into the future. A minimum required payment of \$20 is assumed for all revolving debts.
2. Assumes mortgage does not have an adjustable rate and/or balloon payment.
3. Weighted Average Interest Rate/APR.

Debt Resolution Debt Stacking Details - Your Goal

- ◆ If you add no additional debt and make the same monthly payment of \$3,139 each month using the Debt Stacking method, your debts could be paid off at age 43 / 41 (Jan 2033) and you could avoid paying \$151,709 in interest costs. This is 14 years 8 months sooner than your current projected payoff.*

Debt Stacking Steps

1. Commit to adding no additional debt AND to making the same monthly payment of \$3,139 until all debts are paid off.
2. Consistently make the plan payments (or minimum required payments whichever are greater) on all your debts.
3. When you pay off the first debt in your plan, apply the payment you were making toward that first debt to the existing payment on the next debt in your plan, thus making the same total monthly payment each month until all debts are paid off.
4. Continue this process in the order listed below until all included debts are paid off.

Debt Payoff Plan

Totals		\$2,507.00	\$632.00	\$3,139.00	Jan 2033	\$151,709.36

Don't stop there...Once you become debt-free at age 43/41, consider saving the \$3,139 that was spent toward paying debt each month. This could provide an additional \$2,335,109 by Joe's retirement age 67**.

*This proposed debt pay off solution is an illustration regarding paying off the debts listed above. Results of actual debt optimization pay off programs depend solely on your commitment and adherence to the proposed optimization payment schedule. Anything you attempt to do toward the optimization and pay off of any loan must be permitted by the loan legal documents. Revolving debt payments are calculated the same as fixed debt payments in the Debt Stacking method so that the monthly payment remains the same.

**Assumes 7.00 % rate of return. This illustration is a hypothetical and does not represent an actual investment. The illustration uses constant rates of return compounded on a monthly basis, unlike actual investments which will fluctuate in value and could be significantly impacted by periods of negative returns. It does not include fees, taxes, expenses, or withdrawals, which if included, would lower results. There is no guarantee you will achieve these results.

Warning!

- ◆ **Where You Stand:** Based on the information you provided and the assumptions used in this analysis, you will not achieve your retirement income goal of \$7,600 per month. Due to inflation, your projected income need will be \$20,500 per month the first year of your retirement.
- ◆ **To Meet Your Goal:** To provide your retirement income goal for life, you will need to accumulate \$4,658,974 by Joe's retirement age of 67. This is your Financial Independence Number.
- ◆ One way to accomplish this is to save \$1,765 per month, which is \$850 more than you are currently saving and 18.6% of your income. If your savings earn lower rates of return, you may need to save more to reach your goal.
- ◆ **Don't be discouraged.** A shortfall is not uncommon. In addition to saving more, you can change your retirement age, income goal, Social Security or rate of return.

How long are your retirement savings projected to last?

- ◆ Everyone looks forward to retirement with their health intact and the financial resources to enjoy their retirement years. But retirement must be planned for! Planning sooner rather than later will improve your chances of attaining your retirement goals.
- ◆ **Delay saving just 5 years**, and your monthly savings required would be \$2,152 a month instead of \$1,765.
- ◆ In addition, take steps to help protect your retirement assets. An unforeseen accident or illness leading to the need for long term care could dramatically impact your ability to reach your retirement goals.

- ◆ Don't be discouraged. A shortfall is not uncommon. While the emotional aspects of death can be difficult to deal with, the financial aspects need not be.
- ◆ Adequate life insurance is a vital component of a family's financial objectives. Regrettably, many people have only a fraction of the amount they need to provide for their family.
- ◆ By adequately insuring your life, you can sleep comfortably, confident that your family and loved ones will be in a position to carry on financially in your absence.

- ◆ Match your protection to your needs. For example, a 15 year rider can give you protection for a specific need, then may be dropped once that goal is accomplished.
- ◆ Adequate life insurance is a vital component of a family's financial objectives. Regrettably, many people have only a fraction of the amount they need to provide for their family.
- ◆ By adequately insuring your life, you can sleep comfortably, confident that your family and loved ones will be in a position to carry on financially in your absence.

Important Notes

IMPORTANT:

The projections or other information generated by this Financial Needs Analysis regarding the likelihood of various savings outcomes are hypothetical in nature, do not represent an actual investment or guarantee results.

GENERAL:

This Financial Needs Analysis (FNA) is designed to assist you in identifying your financial needs and goals so that you can make better informed decisions in managing your money. It is provided to you as a complimentary, no obligation service by Primerica. It has been developed based on the information you provided, as summarized on the data input pages, and on certain generally accepted assumptions and reasonable estimates. If you own investments, or have other data that you did not tell us about, we did not include that information in the FNA.

The Financial Needs Analysis is not a financial or retirement plan and is not intended to offer tax, legal, financial, or investment advice. This analysis of your financial needs is for educational purposes only and should be considered a guide for you to use in deciding how best to attain your financial goals.

The calculations and assumptions are based on your current financial situation and today's economic and market environment, which are subject to change. We recommend that you review your goals and plans periodically, especially when there is a change in jobs, a change in marital status, or an addition to the family. As time passes and your financial situation changes, you should submit a new Questionnaire to see how the FNA's suggestions change.

LIFE INSURANCE:

Premiums provided to you in this FNA are solely an example of what you might expect to pay for the coverage you desire assuming you qualify for coverage, based on your current age and tobacco status. Rates vary depending on age of issue and underwriting information. These premiums are based on the following: a Child Rider (CP-CH) children's term insurance rider.

Minimum Premium. The required minimum premium to issue a life insurance policy is \$15.00 a month.

Minimum Coverage. The required minimum coverage needed to issue a life insurance policy is \$15,000 for TermNow products, \$150,000 for ages 18 to 45, \$100,000 for ages 46-50, and \$50,000 for ages 51-70 for Custom Advantage products. The required minimum coverage needed for Preferred, Preferred plus and Select rates is \$150,000.

Inflation rate. Inflation rate of 2.50 % per year is used.

Rate of Return (ROR). Rate of Return used is a nominal interest rate compounded on a monthly basis. All illustrations show constant rates of return, unlike actual investments which will fluctuate in value, especially over the long term. Assumes rate of return for the life insurance income replacement is 7.50 %.

Important Notes

DEBT RESOLUTION:

Debt Assumptions. All payments are assumed to be made on time each month, interest rates remain constant, balances do not increase, and additional fees are not charged by the lender.

Revolving Debt. With a revolving debt your minimum required payment is calculated as a percentage of your outstanding balance. This means that as your outstanding balance declines, your minimum required payments decrease. This could extend your payment schedule out for many years into the future. A minimum required payment of \$20 is assumed for all revolving debts.

Debt Stacking. Debt stacking optimizes your total monthly payment by focusing on paying off each debt in a quick manner. As each debt is paid off, that payment is applied to the next debt in the plan until all debts are paid off (as described below).

1. The same total monthly payment is made each month until all debts are paid off.
2. Consistently make the plan payments (or minimum required payments whichever are greater) on all your debts.
3. When you pay off the first target debt in your plan, apply the payment you were making toward that target debt to the existing payment on the next target debt in your plan, thus making the same total monthly payment each month until all included debts are paid off.
4. Steps 2 and 3 continue until all included debts pay off.

Primerica and representatives of Primerica do not act as an intermediary between you and your creditors, and do not imply, promote or guarantee that credit files or credit scores will or may be improved, repaired, boosted, enhanced, corrected or increased by use of the FNA. Neither Primerica nor its representatives are certified or registered financial planners or tax advisors and do not offer or provide services such as credit repair or improvement, budget planning, debt or credit counseling, debt management or settlement, or other similar services.

Primerica DebtWatchers™

Services not offered or performed as part of this Financial Needs Analysis include but are not limited to: offering (or implying to offer) a service to improve a consumer's credit record, credit history, or credit rating; obtaining an extension of credit on behalf of a consumer in connection with Primerica DebtWatchers™; repaying debts on behalf of consumers; negotiating with consumers' creditors; repairing credit report entries; credit counseling; debt settlement; or budget counseling or planning.

RETIREMENT:

Timing of deposits and withdrawals. All deposits and withdrawals are assumed to be made at the beginning of the month.

Income Goal in Retirement. Many financial experts estimate that you will need to replace about 80% of your annual after-tax, pre-retirement income each year after you stop working to live comfortably in retirement.

Life Expectancy. Life expectancy is an important variable in determining whether you are saving enough for retirement. We use the Actuarial Life Table, published by the United States Social Security Administration in determining the default life expectancy. Actual life expectancy could be significantly longer or shorter than the assumptions.

Inflation rate. Inflation rate of 2.50 % per year is used.

Rate of Return (ROR). Rate of Return used is a nominal interest rate compounded on a monthly basis. All illustrations are mathematical hypotheticals and show constant rates of return, unlike actual investments which will fluctuate in value. The default rates of return used to derive the amount saved at retirement and investment earnings during retirement are 8.00% and 4.00%, respectively.

Hypothetical Retirement Savings. The default rates of return used to derive the amount saved at retirement are 8.00% before retirement and 4.00% during retirement. Your social security benefit is assumed to grow at a default cost of living adjustment of 2.50% per year. The hypothetical retirement savings examples and values presented in these materials are not guaranteed and do not account for any expenses, sales charges or tax consequences which would lower results. They are intended to demonstrate compounding at various rates of return and do not illustrate the performance of investment or market conditions. If you have any questions concerning tax-related issues, you should contact a qualified tax advisor.

Financial Independence Number. The Financial Independence Number is an estimate based on your stated total accumulated retirement savings and stated income needs during retirement. This number is based upon the data you provided and the assumptions described herein. This number is for illustrative purposes and cannot be guaranteed.

Social Security Benefits. The default social security benefit estimates, if included, are based on your current income, birth date, and benefit start age. The benefit amount is only an estimate and is not guaranteed. Actual benefit may be impacted by changes in income or legislation or other factors over time. (Source: imercer.com/socialsecurity). Important Notes

PLPP Disclosures and Exclusions:

1. NV residents are limited to 50 hours of consultation per year and five document reviews per membership year.

A letter or phone call per subject matter is available if advisable at your Provider Law Firm's sole discretion. You must be a contracting party on the document for document review benefits.

2. Motor vehicle-related benefits are available 15 days after your effective date. If you have received any traffic tickets before your 15-day waiting period has passed, your Provider Law Firm will provide services at your preferred PLPP member discount rate.

Exclusions on charges where the covered member is driving without a valid operator's license as well as charges of DUI/DWI, drug-related charges (whether prescribed or not), hit-and-run, leaving the scene of an accident, unmeritorious cases or similar charges are covered with your preferred member discount.

Under the family membership plan, commercial vehicles with more than two axles are not covered.

3. This coverage applies only to the named member and spouse - dependents are not included. Divorce, separation, annulment, child custody or other divorce-related matters, bankruptcy, charges of DUI/DWI, drug-related charges (whether prescribed or not), hit-and-run, leaving the scene of an accident, unmeritorious cases or similar charges are covered with your preferred member discount.

Additional exclusions: Being named in a civil lawsuit or having criminal charges filed against you because you are listed as an owner, management or associate of the business and you had no direct involvement with the act or matter that gave rise to the lawsuit or criminal charge. Those charges are covered with your preferred member discount.

If the lawsuit was filed because of something that was alleged to have occurred prior to your membership or because of conditions that were reasonably anticipated or foreseeable prior to your enrollment, then the lawsuit is excluded from your Trial Defense benefit. This exclusion applies even if the lawsuit is filed after you become a member. These lawsuits are covered with your preferred member discount.

Class actions, interventions or amicus curiae filings in which the covered member is the party (or potential party) are excluded. Also, this coverage does not include garnishment, attachment or any other appeal.

Always consult with your Provider Law Firm to determine the extent of your coverage under the family membership plan.

Your Provider Law Firm has the right to determine whether or not your claim or defense to a matter will prevail in court or is frivolous or without merit. This includes deciding whether or not to appeal any judgment or decision. Your Provider Law Firm also has the right to present your claim or defense according to their professional judgment. The Company will not influence or attempt to modify how your Provider Law Firm provides their professional services.

Any legal services not covered by your family membership plan will require you to pay a retainer to your Provider Law Firm. Your Provider Law Firm will determine how much of a retainer is required and services will not be provided until payment is made to the Provider Law Firm.

4. Exclusions:

- Garnishment, attachment or any other post-judgment relief;
- Class actions, interventions or amicus curiae filings;
- Charges of tax fraud or income tax evasions;
- Trust returns, business and/or corporate tax returns (schedule C), payroll and information returns, partnerships, corporation returns or portions thereof that are included in the member's tax returns;
- Pre-existing conditions - where member has been notified by the IRS prior to the effective date of the membership contract;
- Services rendered by an enrolled agent.

5. Depending on your legal needs, a retainer may be required by your Provider Law Firm prior to services being rendered under this discount. Your Provider Law Firm is responsible for determining the amount of the retainer and any other anticipated costs. Other costs you may incur include fines, court costs, penalties, expert witness fees, bonds, bail bonds, and any out-of-pocket expenses. These costs are your responsibility and are not included as part of membership benefits. Your Provider Law Firm cannot provide any legal services until payment of the retainer and other costs have been made. You have the right to ask for a detailed invoice. If you need to, you can ask your Provider Law Firm if they will consider a payment plan.
